

## Comforting warmth in the harshest conditions

### Eldfell key features

- Everything fits inside the combustion chamber
- Low weight
- Cooking facility
- Very safe
- Stands on snow
- Takes long, thick logs
- No loose small parts
- Efficient combustion

A prototype of Eldfell Pro was an essential and much appreciated member of the demanding Swedish expedition to Siberia in 2004–2005, called “the world’s coldest journey”.

Get rid of damp and cold, create a warm, cosy atmosphere, dry clothes, cook food – basically, enjoy your home comforts.

With its ingenious design where all parts fit inside the combustion chamber, its efficient heat transmission, low weight and easy handling, Eldfell is the natural heart of the Nordic tipi and a faithful friend in cold and damp conditions. Whereas simple stoves release more of their heat through the chimney, the advanced design of Eldfell means combustion takes place nearer the ground, creating more heat inside the Nordic tipi, providing more effective heat for cooking and reducing wood consumption.

Eldfell fits all Adventure tent sizes using the same stove body but different chimney lengths. The stove is made of stainless steel and comes in its own purpose-made wooden box.

### Construction

All technical features have been designed to fulfil demands for low weight, good functioning and strength. The combustion chamber is spacious and about 50 cm long to take long, thick logs. The extendable insulation pipe protects the tent fabric even in strong winds. The spark arrester protects both the tent fabric and the surrounding area. In order not to sink down in snow, the legs have notches so they can be placed on poles.

### Tentipi

- has its roots in Swedish Lapland – the homeland of the Sami kåta
- stands for passion and expertise, especially when it comes to Nordic tipis
- has three decades of experience as the world-leading manufacturer of Nordic tipis
- has several patents and design rights for its original, ingenious design
- cares so deeply about its products that it only makes its Nordic tipis in its own fully-owned factories
- exposes every fifth tent to a full-scale rain test
- views every Nordic tipi as a unique product and gives it a personal ID to make it possible to track its components and specific design
- cares about previous customers by always striving to make new features also fit the older models of tents.

Eldfell stove				
Model	Eldfell Pro			
Material	Stainless steel			
Size	5	7	9	15
Weight (kg)	14.1	14.5	15.0	15.4
Size when packed (cm)	65x38x32			

### Suitable for

Tentipi® single-pole Nordic tipis

### Why people choose Tentipi®

Because they think it is worthwhile investing extra money in order to get a superior product.

Because they believe that Tentipi’s sole focus and passion for Nordic tipis give a better functioning and more reliable Nordic tipi.
